

The graph displays the FWHM ENC [keV] on the y-axis (0 to 120) against Peaking times on the x-axis (0 to 7). A red dashed line at 4 keV is labeled '4 keV'. The data series include:

- Yellow line with asterisk markers: Peaks at time 6 (~51 keV).
- Purple line with asterisk markers: Peaks at time 3 (~35 keV).
- Blue line with asterisk markers: Peaks at time 6 (~29 keV).
- Orange line with asterisk markers: Peaks at time 6 (~24 keV).
- Red line with asterisk markers: Peaks at time 6 (~22 keV).
- Green line with asterisk markers: Peaks at time 6 (~20 keV).
- Light blue line with asterisk markers: Peaks at time 6 (~18 keV).
- Dark blue line with asterisk markers: Peaks at time 6 (~16 keV).
- Light green line with asterisk markers: Peaks at time 6 (~14 keV).
- Dark green line with asterisk markers: Peaks at time 6 (~12 keV).
- Light orange line with asterisk markers: Peaks at time 6 (~10 keV).
- Dark orange line with asterisk markers: Peaks at time 6 (~8 keV).
- Light red line with asterisk markers: Peaks at time 6 (~6 keV).
- Dark red line with asterisk markers: Peaks at time 6 (~4 keV).
- Light blue line with circle markers: Peaks at time 6 (~10 keV).
- Dark blue line with circle markers: Peaks at time 6 (~8 keV).
- Light green line with circle markers: Peaks at time 6 (~6 keV).
- Dark green line with circle markers: Peaks at time 6 (~4 keV).
- Light orange line with circle markers: Peaks at time 6 (~2 keV).
- Dark orange line with circle markers: Peaks at time 6 (~1 keV).
- Light red line with circle markers: Peaks at time 6 (~0.5 keV).
- Dark red line with circle markers: Peaks at time 6 (~0.2 keV).
